## Point of Sale Pricing

# StoreLIVE! Point of Sale Pricing

There are 3 components to the cost of implementing a point of sale system – hardware, software, and installation/training. Hardware includes the equipment that is installed at a register checkout lane or counter. Costs vary based on the type of point of sale configuration required at a store. Software prices are based on the number of registers in use and computers accessing the StoreLIVE! system, and installation and training costs will vary based on the features utilized by a store.

## Software

StoreLIVE! Point of Sale License	<b>\$895.00 per register</b>
StoreLIVE! Manager License	<b>\$200.00 per concurrent user</b>
ePlum Scale Management Software	<b>Call for Quote</b>

*The StoreLIVE! Manager program is used to maintain items and prices, run reports, track inventory, etc. It is an application that is installed on an office or store computer. It is not typically installed on the register. Concurrent user means the number of users simultaneously using the StoreLIVE! program. For example, if you have 3 computers, but only 2 are ever in use at 1 time, you would only need 2 StoreLIVE! Manager licenses*

*The ePlum Scale Management software is an interface to supported Bulk/Deli/Meat scales. This allows product, pricing and ingredient information to be seamlessly transferred from the StoreLIVE! system to networked scales.*

## POS Hardware

HP RP5800 Point of Sale Terminal with 15" Touch Screen, cash drawer, thermal receipt printer.	<b>\$1,999.00</b>
---	-------------------

## POS Hardware Options

10" Doublesight Customer Display	<b>\$165.00</b>
Omni-directional countertop barcode scanner	<b>\$265.00</b>
NCR Single Window countertop barcode scanner	<b>\$499.00</b>
NCR In-Counter scanner with scale	<b>\$1,499.00</b>
NCR In-Counter scanner – no scale	<b>\$1,199.00</b>

**ePlum Scale Software Support** – Call for Quote

## Integrated Credit Card Processing Options

The StoreLIVE! Point of Sale system includes direct, high speed integration with several preferred credit card processors including **Mercury Payment Systems, ClearTec Solutions and MPX/First Data**. With the purchase of a supported credit card terminal, credit/debit and EBT transactions can be processed via an internet connection without any additional software or gateway costs. Additionally, StoreLIVE! stores a transaction “token”, allowing items to be refunded to credit cards without the actual card being present.

Good’s Technology Services is an authorized partner with these processors and can assist you with opening an account with any of these processors. Please request more information from us if you are interested in this option.

In addition to our preferred processors, StoreLIVE! can connect to a wide variety of credit card processors via the use of a gateway. Please inquire with us if your current credit card processor is supported.

## Credit/Debit/EBT Terminal Options

Ingenico isc250 Touch Credit/Debit Terminal with EMV, NFC and Signature capture	\$699.00
PAX MT-30 Credit/Debit Customer Facing Terminal w/Signature Capture	\$489.00
PAX S300 Credit/Debit Customer Facing Terminal w/Signature Capture	\$399.00

With the integrated credit card functionality, cardholder data is never stored within the StoreLIVE! system. This setup greatly reduces the liability and PCI requirements of the merchant.

# StoreLIVE! Point of Sale Pricing

Example pricing for typical installations:

## Specialty Store

Installation of 2 point of sale terminals including integrated credit card devices, counter top scanners and customer facing displays. StoreLIVE! Manager program is utilized by 4 store personnel on various computers. Inventory tracking is being utilized, which requires detailed setup. Support personnel travel to store to provide setup and training. Store has existing office/store computers and a computer network already in place.

Software:	<b>\$2,590.00</b>
POS Hardware:	<b>\$5,999.00 (estimated)</b>
Installation/Training:	<b>\$3,500.00</b>
<b>Total Project Cost:</b>	<b>\$12,089.00</b>

## Supermarket

Installation of 6 point of sale terminals including integrated credit card devices, in-counter scanner/scales and customer facing displays. StoreLIVE! Manager program is utilized by 5 store personnel on various computers. Inventory tracking is not being utilized, reducing the scope of the installation. Support personnel travel to store to provide setup and training. Store has existing office/store computers and a computer network already in place.

Software:	<b>\$6,370.00</b>
POS Hardware:	<b>\$25,000.00 (estimated)</b>
Installation/Training:	<b>\$5,000.00</b>
<b>Total Project Cost:</b>	<b>\$36,370.00</b>

## Support

Purchase of StoreLIVE! software includes unlimited phone, email and remote support and software updates and enhancements for 90 days after the system is up and running. After this initial period, these benefits may be extended by purchasing an annual support contract. Support is also available on a time and materials basis. Support during normal business hours (*Mon – Fri 8:00 a.m. – 5:00 p.m. EST*) is billed at \$95.00 an hour. Extended emergency support (*Mon – Fri 5:00 p.m. – 9:00 p.m. EST and Saturday 8:00 a.m. – 5:00 p.m. EST*) is billed at \$125.00 an hour.
